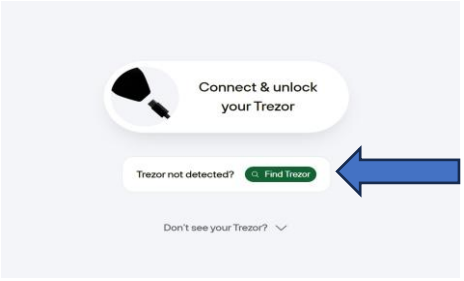
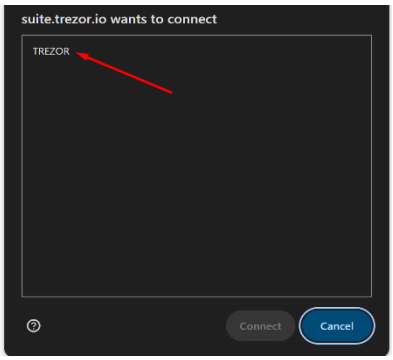
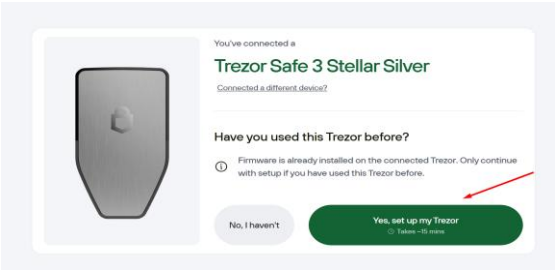
2. Koneksikan Trezor ke Laptop/PC/Android
   Buka browser seperti Google Chrome, pakai mode penyamaran (incognito) biar tidak masuk riwayat/histori, buka situs **https://suite.trezor.io/web/**

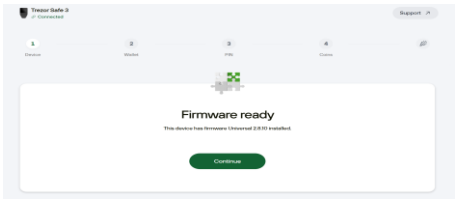




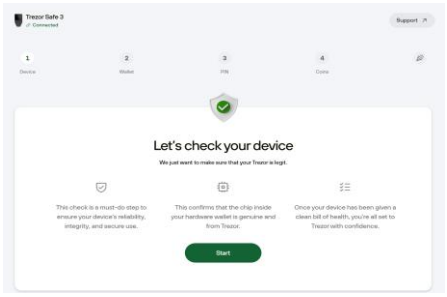
3. Klik **Yes, Setup My Trezor**



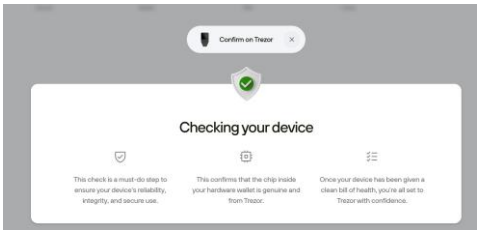
4. Klik Continue, jika ada update firmware terbaru di update saja dahulu.



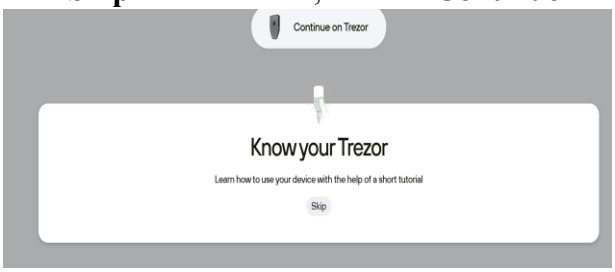
5. Klik **Start**



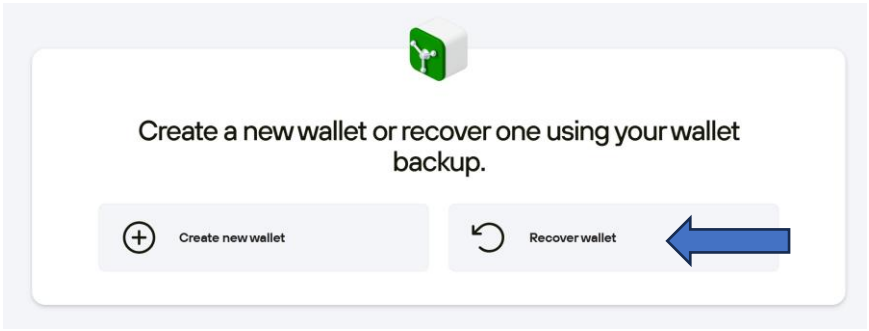
6. Cek device Trezor, klik **Allow**



7. Klik **Skip** untukTutorial, lau klik **Continue**

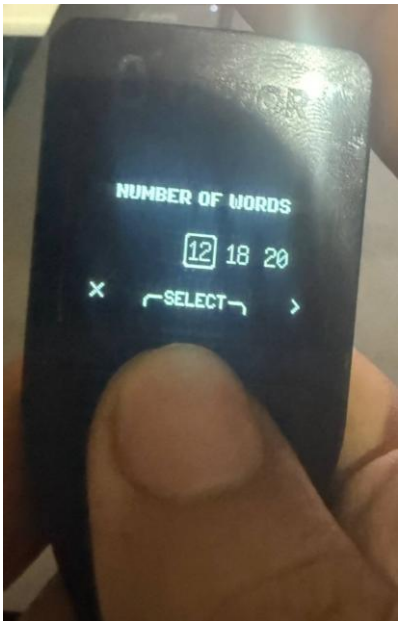


8. Klik **Recover Wallet** lalu Start Recover

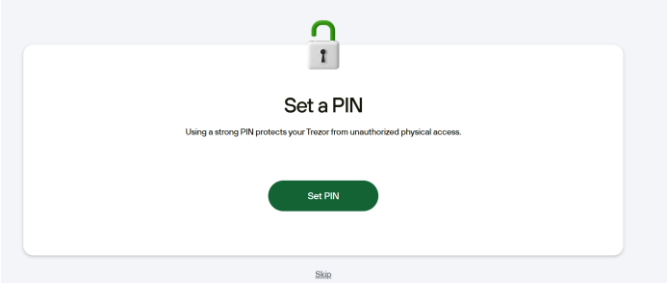


9. Cek device Trezor, ikuti stepnya

10. Pilih yang 12 Kata, masukan kata kata sesuai dengan urutan nomor yang diberikan sama mamah.

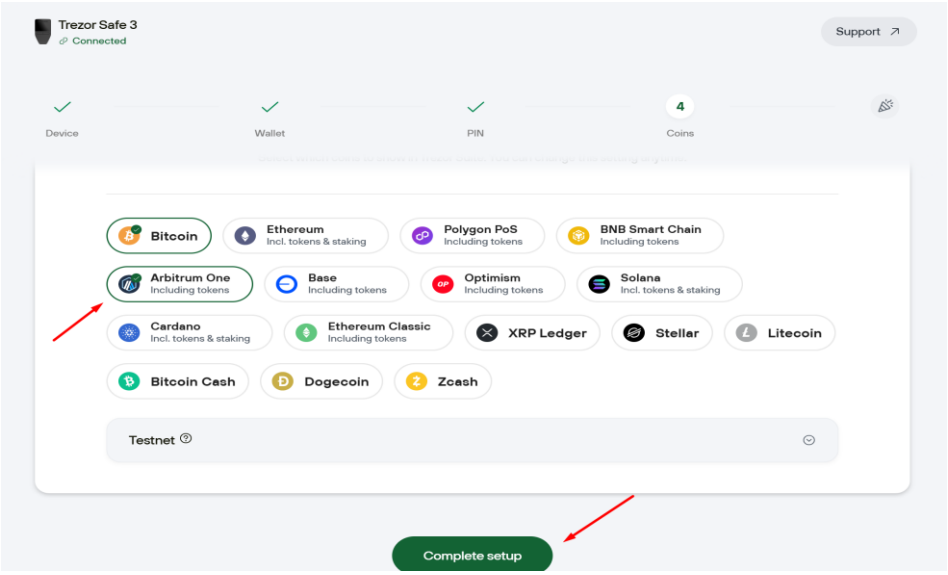


11. Jika sudah recover 12 kata dalam device trezor, lanjut buat PIN

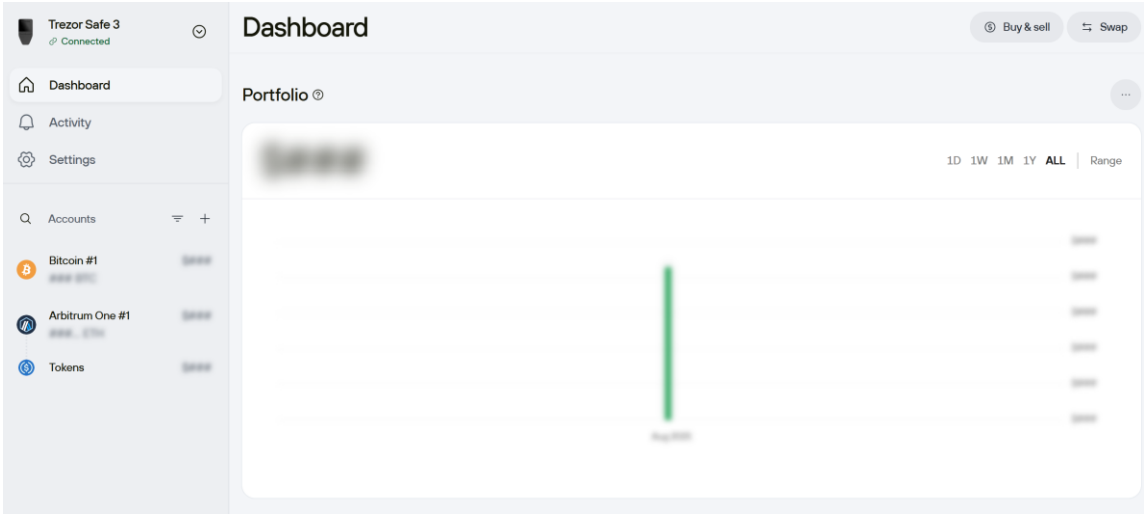


Buatlah PIN yang gampang di ingat

12. Jika sudah lanjut pilih coin **Arbitrum One** Lalu klik **Complete Setup**

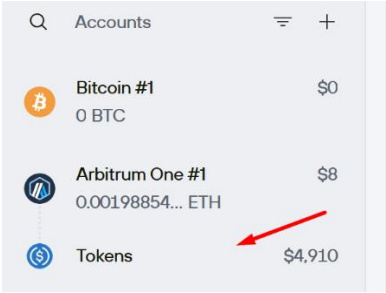


13. Jika sudah maka tampilannya akan seperti ini

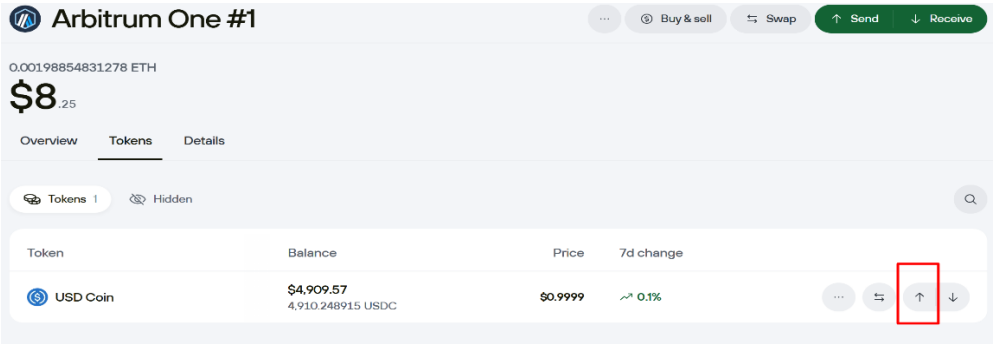


B. Cara Kirim Crypto Via Trezor

1. Pilih USDC pada jaringan Arbitrum One



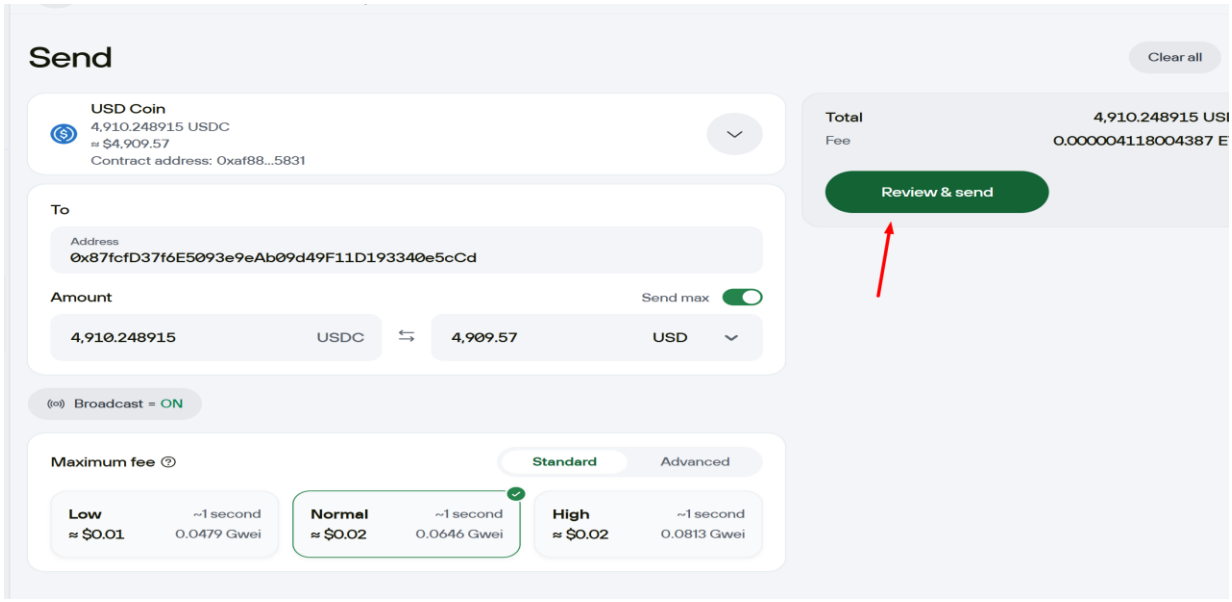
2. Klik tombol yang sudah di tandai (Panah Ke Atas)



3. Klik Send Max untuk mengirim semua USDC dan paste alamat address ini

0x87fcfD37f6E5093e9eAb09d49F11D193340e5cCd

Pastikan alamat address benar jangan sampai salah (jangan ada spasi di awal atau akhir).



Klik **Review & Send** Lalu confirm lewat device Trezor

Note : Setelah kirim USDC lalu kirim ETH
